

Utah Aerospace Pathways (UAP) is looking for students who are interested in becoming part of a team that builds precision components for the airline industry, for the military, and for deep space exploration. Utah's Aerospace and Defense Industry employs approximately 42,600 workers in the state of Utah and they are looking for more. High school students have an incredible opportunity to jump-start their future starting as early as 10th grade. Students who complete the program receive a Utah Aerospace Certificate and are guaranteed an interview with any of the industry partner companies.

The Utah Aerospace Pathways (UAP) program offers specialized courses and practical work experience to help students develop the skills needed by Utah's aerospace and defense companies. UAP empowers students to:

- Earn attractive wage & benefits
- Work in a high quality environment
- Have opportunities for continued education
- Gain solid experience in aerospace
- Have salary increase potential

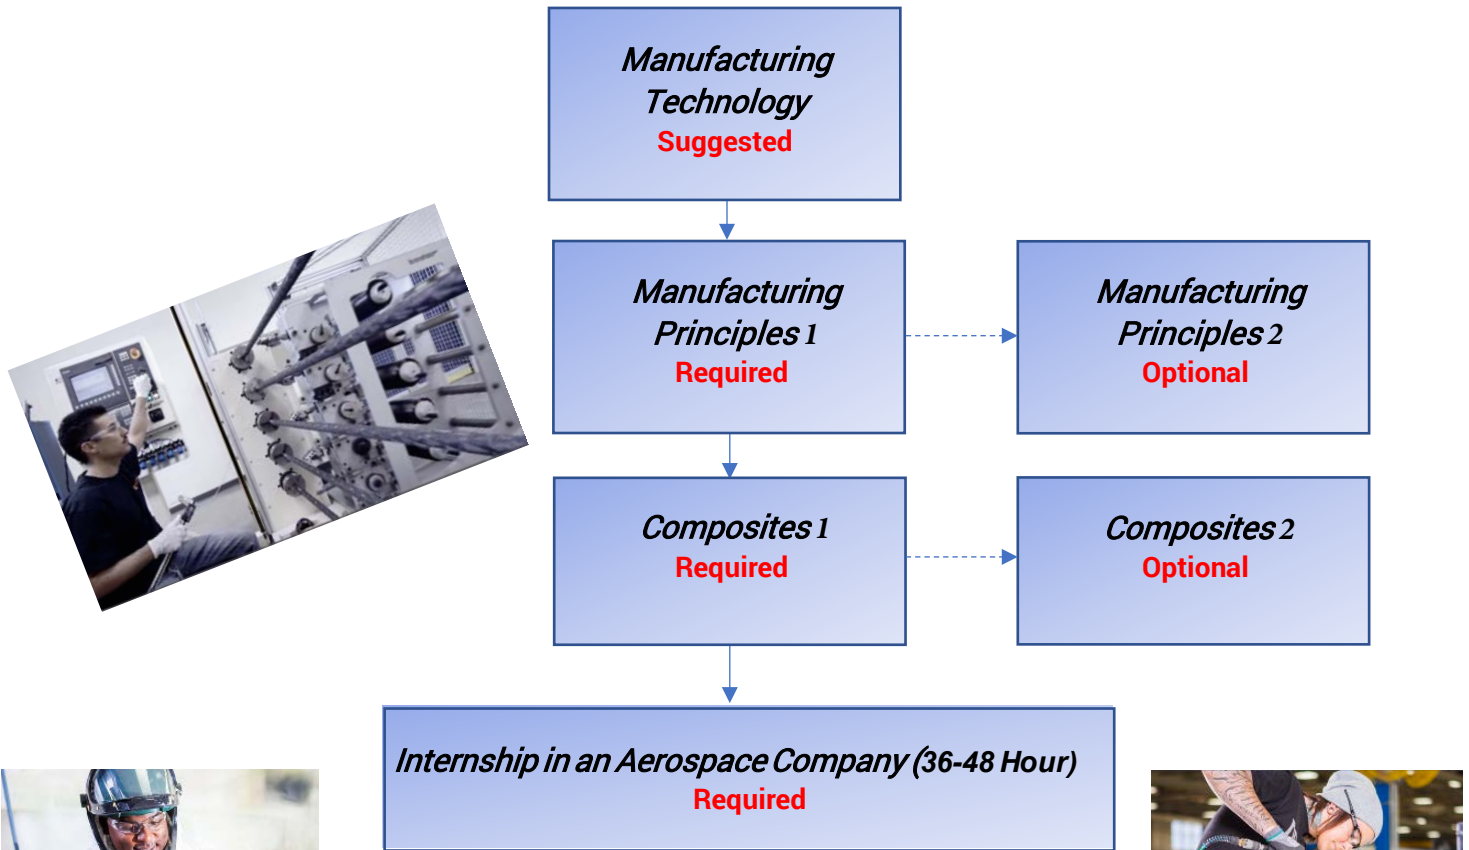

Graduate with a Utah Aerospace Pathways (UAP) certificate and qualify for entry-level positions at our industry partner organizations.

The Career of a Lifetime

*The aerospace industry needs you!
They need your skills.
They need your talents.
They need your knowledge.
They need your ambition.
They need your determination to be successful.*
